FAQs

1. ***Can a NF request verification of a player with a play.fiba3x3.com profile with „Pending“ or „Not registered“ status?***

   Only confirmed profiles can be verified.

   - If a player has no profile at all, the player first needs to create and confirm a profile.
   - If a player has a profile with *Not Registered* status, the player needs to create and confirm a profile and can request merging of the various profiles: https://help.fiba3x3.com/en/support/solutions/articles/35000001743-i-have-multiple-profiles-how-do-i-merge-them-
   - If a player has a profile with *Pending* status, the player can trigger a resending of the confirmation email via his own play profile: https://help.fiba3x3.com/en/support/solutions/articles/35000150842-turning-unconfirmed-profile-into-a-confirmed-profile

2. ***May a NF create a play.fiba3x3.com profile for a player, if a player does not have such profile yet?***

   The NF may not create profiles on behalf of players. Every user registered on play.fiba3x3.com shall create and confirm his profile himself. Profiles created by NFs on behalf of players will not get verified by FIBA, but rather will they get deleted.

3. ***Can a player turning 15 years or younger get verified?***

   Players can get verified at the earliest in the year when they enter the U18 category, meaning in the year when they turn minimum 16 years of age. Before that, no player verification is possible.

FAQs

4. ***If a NF for a player cannot present a passport with an issue date that meets the eligibility criteria, is this player then considered non-eligible?***
   If a NF cannot present a passport with an issue date that meets the eligibility criteria and cannot share an expired passport or a certificate of the expired passport nor refer to a FIBA MAP entry, such player is not considered non-eligible per se. Such player will be verified according to the issue date of the presented passport and will be eligible once the passport issue date meets the eligibility criteria.

5. ***Are players registered in FIBA MAP automatically verified for 3x3 national team competitions?***
   Players registered in FIBA MAP are not automatically verified for 3x3 national team competitions. It is every NF´s responsibility to request verification for every athlete.

6. ***Why are players eligible for U23 competitions with a valid passport irrespectively of the issue year, but not for Open competitions?***
   The U23 category has lighter eligibility criteria compared to the Open category (see Book 6 IR). However, the different criteria for U23 categories may not annul the criteria of the Open category. For the Open category it is mandatory to prove that a player had the legal nationality **and** a passport issued before the respective eligibility cut-off date.
   This can result in U23 players being eligible to play for the national teams in U23 competitions, while for the Open national teams they must sit out until their passport meets the eligibility criteria.

b) 2 of the Event Roster players and the 2 Substitute players must be selected from
- the frozen Top-10 list of ranked, eligible and verified nationals of the NF, that have not played in the Nations League in the previous calendar year or
- the Nations League players of the previous calendar year, that are ranked amongst the above frozen Top-10 list

Examples of players that will meet the criteria of above letter b:

Rank	Player Type Example 1	Player Type Example 2	Player Type Example 3
